Sergio Patón García

Full Stack Developer & Artificial Intelligence Integrator

Mislata, Valencia, Spain | (+34) 648002298 | sergio.97pg@gmail.com | GitHuh

Professional Profile

Full Stack Developer with specialized technical training in Web Application Development (DAW) and practical experience in enterprise software solutions. Solid foundation in high-performance asynchronous APIs (Python/FastAPI, Node.js), AI automation (Google Gemini SDK), and desktop development (Electron). Key competencies provided by a versatile background: high discipline, problem-solving under pressure, and teamwork in multidisciplinary environments.

Technical Skills

- **Backend:** Python (FastAPI, asyncio), Node.js (Express, Fastify), Java (Spring Boot), PHP.
- **Frontend:** React 19, Tailwind CSS, JavaScript (ES6+), HTML5, CSS3, Vite.
- **Databases & ORMs:** PostgreSQL, MySQL, SQLite, Redis, Prisma ORM, SQLAlchemy.
- **AI & Automation:** Google Gemini SDK, n8n, Meta Graph API.
- **Tools & DevOps:** Git/GitHub, Playwright, PyTest, Jest, Electron, Docker.

Highlighted Projects

- **VeriFactu Billing System (Win o Win Consulting):** Multiplatform desktop application built with Electron and Prisma ORM (MySQL), adapted to Spanish billing regulations. Includes cryptographic logic for XML digital signature and QR code generation.
- **Instagram Sales DM Funnel Engine:** API developed with FastAPI and React 19 that automates sales funnels via Instagram direct messages, integrating the Google Gemini SDK and Meta Graph API.
- **Geolocation and Clocking API:** Backend attendance control service based on geofencing with GeoAlchemy2, Shapely, Redis, and Firebase.
- **Running Tracker (DAW Project):** SPA/MPA web application with hexagonal architecture in Node.js/Express for the optimization and automation of sports training plans.

Work Experience

- **Full Stack Developer (Internship) | Win o Win Consulting (Mar 2026 - Jul 2026):** Multiplatform development of VeriFactu software (Electron/Prisma), AI integration with FastAPI and Gemini, and geospatial geolocation services.
- **Receptionist & Operations Manager | Pádel A3 (Oct 2023 - Oct 2024):** Customer

service, tournament management, and user database administration.
- **Sports Instructor | Freelance (Jan 2016 - Jan 2019):** Class direction and development of communication and planning skills.
- **Maintenance Staff | ISS / FOVASA (2019 - 2022):** Systematic organization and compliance with operational protocols in demanding environments.

Education and Training

- **Higher Technical Degree in Web Application Development (DAW):** Solvam & UCADEMY.
- **Higher Technical Degree in Animation of Physical and Sports Activities (TAFAD):** IES Molí del Sol.
